

# FIRST BIKE JOURNEY

HONDA

Anson had always dreamed of owning a bike of his own, and the black Unicorn 160 Disc was the one he wanted the most. On January 3rd, he finally signed the papers, turning his dream into reality. The wait felt endless until January 15th, when he finally got the keys and saw his bike standing in front of him for the first time. The first ride wasn't just about the road — it was about freedom, happiness, and the start of a new journey that Anson would never forget.
